Postanschrift

Universität Bremen
Fachbereich 3 (Mathematik & Informatik)
Postfach 330 440
28334 Bremen

How to reach us

By train:
From the main station take exit "City". Walk a short distance of 60 meters ahead and to the left to tram no. 6 (direction university: "Universität"). Get off at final stop "Klagenfurter Straße". Follow "Hochschulring" to your right. After a walk of about 200 meters enter Linzer Strasse to your left. Turn right after 50 meters. The street ends after another 60 meters. To your left and straight ahead you meet the broad stairs leading up to the building. Alternatively get off one stop earlier at "Zentralbereich" (center of campus). Catch bus 20, 21 or 22 continuing in the same direction for a short distance. Get off at "Linzer Strasse". Cross the street and immediately enter Linzer Strasse. Turn right after 50 meters. The street ends after another 60 meters. To your left and straight ahead you meet the broad stairs leading up to the building. Inside the building, take the staircase or the lift up to third floor. Use the buzzer to your right. Someone will come, open the door, and welcome you

By plane:
After leaving the airport building, get into a taxi to OAS building, Linzer Str. 9a. The cheaper way is by tram no. 6 to the university. Continue as under "by train".

By car:
You come along Autobahn no. A27 direction "Bremerhaven". Leave the highway at exit "Universität / Horn-Lehe". Take a right turn at the next intersection (traffic lights). After 50 meters turn right again into "Linzer Strasse". Another right turn takes you closer to our building. Try to park your car anywhere around here, or stop at the barrier and ring for assistance. Tell them you are a visitor to the university. The barrier will open. Get into the building, after parking.
